

1. Open Benelinx and then go to the Setup Button

2. Type Network Access into the Search Bar on the Left

3. Click New

## Network Access

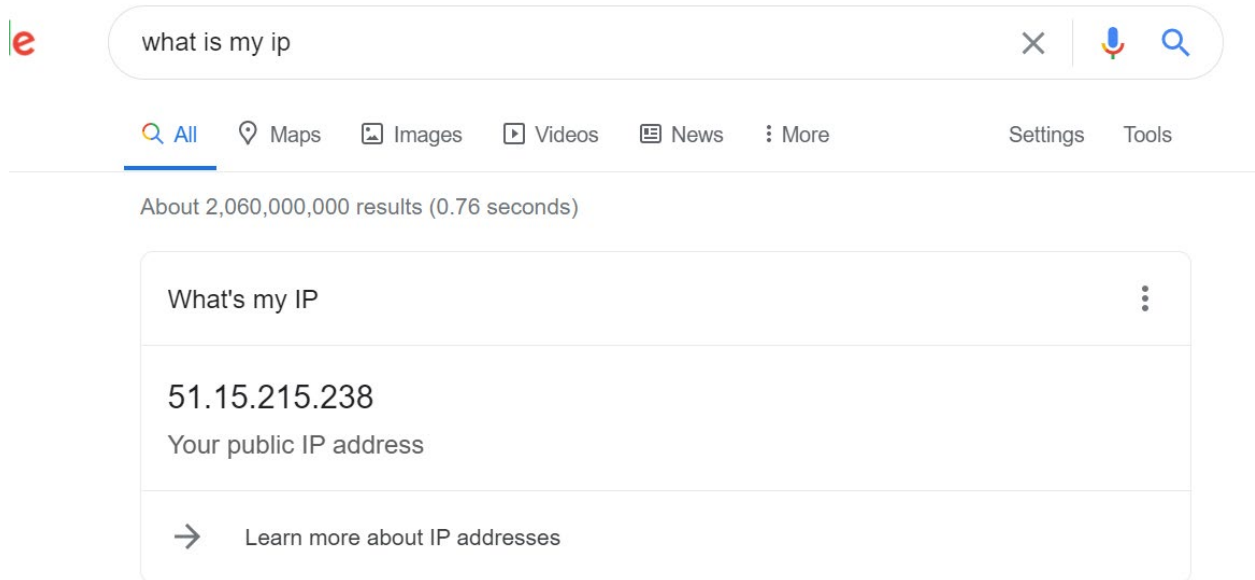

[Help for this Page](#) ?

The list below contains IP address ranges from sources that your organization trusts. Users logging in to salesforce.com with a browser from trusted networks are allowed to access salesforce.com without having to activate their computers.

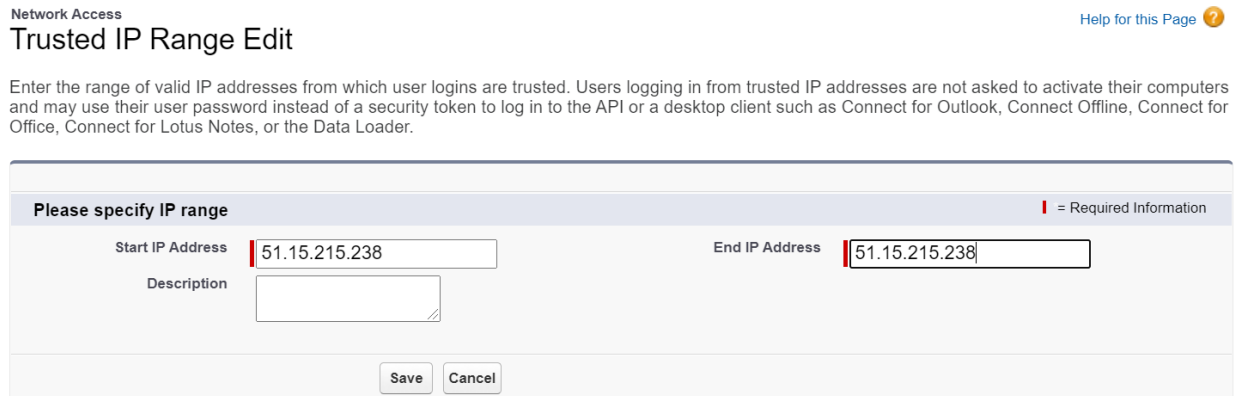

Trusted IP Ranges

New

4. Google "What is my IP"

5. Go back to the new Trusted IP Range Page that you pulled up in Step 3 and Paste your IP Address in both the Start and End IP Address

6. Done! Your IP address for your computer has been added to the trusted list for your Benelinx application!
